contractor's failure to properly estimate or accurately predict the cost or difficulty of achieving the results required. The Government will not adjust the contract price due to fluctuations in currency exchange rates. The Government will only make changes in the contract price or time to complete due to changes made by the Government in the work to be performed, or by delays caused by the Government.

The Government will make payments based on quantities and unit prices only to the extent specifically provided in the contract.

**SECTION C – DESCRIPTION/SPECIFICATIONS
STATEMENT OF WORK**

C.1 CHARACTER AND SCOPE OF WORK

The Contractor shall furnish and install all materials required by this contract. Any exceptions are stated in the Specifications/Statement of Work and drawings for materials and equipment to be provided by or work to be performed by the Government or others under separate contracts, or otherwise stated as not included in the contract. The contract Specifications/Statement of Work are set forth in Section J as Attachment 2, the contract drawings and plans are set forth in Section J as Attachment 3, and the Technical Specifications are set forth as Attachment 4.

C.2 DRAWINGS

In case of differences between small and large-scale drawings, the latter will govern. Where a portion of the work is drawn in detail and the remainder of the work is indicated in outline, the parts drawn in detail shall apply also to all other portions of the work.

SECTION D – PACKAGING AND MARKING

- D.1 If the Contractor procures materials for the project that must be shipped from another country to the host country, the shipments shall be marked as follows:

Diplomatic Shipment
American Embassy Bogota
Colombia
Contract Number SCO-150-14-C-N____

- D.2 The Contractor shall mark materials delivered to the project site as follows:

- D.3 Packaging Requirements for Mail and Courier Shipment of Documents and Drawings:

D.3.1 Separate Packaging of Electronic Media and Hardcopy Material.

The prime Contractor and any associated subcontractors shall package all drawings and electronic media (Sensitive But Unclassified (SBU) and unclassified) in separate mailing packages, specifically, electronic media will be transported in electronic media packages that contain no other drawings or hard copies of any kind, beyond that of transfer/receipt documentation. Hardcopy (paper) drawing and documents will be packaged separately.

D.3.2 Double Wrapping and Addressing of Packages.

For all shipping methods, the prime contractor and any associated subcontractors shall ensure that all project documentation, SBU and unclassified, is double wrapped with both layers addressed properly and labeled with the sender's address. No indication that the contents are SBU should appear on the outer wrapper. Document tracking receipts should be packaged inside the inner wrapping with the materials the receipt describes.

D.3.3 Packaging Heavy Materials in Appropriate Containers.

In applying the above double wrapping and addressing procedures, items sent via US mail or commercial carrier weighing more than one (1) pound shall have the inner package enclosed within an appropriately sized double-walled box or, for rolled drawings, a manufactured mailing tube. The cardboard box or mailing tube counts as the second layer of wrap.

FEDERAL ACQUISITION REGULATION (48 CFR CH. 1)

52.246-12 Inspection of Construction (AUG 1996)

E.2 QUALITY ASSURANCE AND QUALITY CONTROL

E.2.1 Quality Assurance Plan:

E.2.1.1 General.

The Contractor shall establish and maintain a project-specific Quality Assurance Plan (QAP) which defines and implements a quality system. The quality system is a documented organizational process which describes responsibilities, procedures, and resources for providing quality control and quality assurance on a project. The implemented QAP shall include checklists of duties to be carried out, ensuring these duties are carried out by the supervisory staff and senior employees, and carrying out weekly inspections to determine whether the various services are being performed according to the contract. The Contractor shall provide copies of the weekly inspection reports to the Contracting Officer’s Representative (COR). The reports shall be provided to the COR within seven (7) days following the end of the weekly period. The Contractor shall correct and improve promptly any shortcomings and substandard conditions noted during inspections. The Contractor shall bring any conditions beyond the responsibility of the Contractor to the attention of the Contracting Officer or COR.

Effectiveness of the QAP is achieved through adequate planning, forceful direction, and evaluating the QAP to ensure that it’s meeting the stated objectives. The QAP must address a) Quality Control, which includes the operational techniques and activities that are used to fulfill the requirements for quality, and b) Quality Assurance, which includes documentation of the planned and systematic actions required to provide confidence that the services provided are based on project requirements and that they satisfy the stated requirements for quality. The QAP shall apply to work performed by the Contractor, as well as any of its subcontractors.

E.2.1.2 Periodic Assessments.

After award of the Contract, the Government may perform periodic assessments of the QAP to ensure conformance with contract requirements. Any areas of non-conformance (if identified) shall be immediately addressed by the Contractor, in order to avoid delays in performance that may result from quality-related issues.

E.2.1.3 QAP Requirements.

The QAP shall be structured and developed to include the following minimum requirements:

- a) Organizational Structure. The Contractor shall define and submit a QAP organizational structure within fifteen (15) calendar days of contract award, including charts and a description of responsibilities of key persons who will perform Quality Control and Quality Assurance services. Persons responsible for interface with the Government, including the Security Manager and QAP Manager shall be identified. A separate list should also include all QAP team members, including consultants if used, with telephone numbers and e-mail addresses provided.
- b) Quality Policy. The Contractor shall have a stated corporate quality policy. This policy shall be consistent with the Contractor's quality policy in the QAP. Necessary measures shall be taken by the Contractor to ensure that the corporate quality policy is understood, implemented, and maintained by all employees of the Contractor and any subcontractors.
- c) Security and Communications Interface. The QAP shall provide for integration of security and communications requirements into the project.
- d) Document Control. The QAP shall ensure that documents, including any subsequent changes, will be reviewed for adequacy, approved for release by authorized personnel, and properly conveyed to the Government. Persons responsible for reviewing, approving, and releasing new and revised documents shall be identified.
- e) Administration. The Administration of the QAP shall be vested in a responsible, authoritative element of the organization with a clear access to management. The organization shall be staffed by technically competent personnel with sufficient authority to ensure that quality requirements are consistently maintained.

E.2.2 Monthly Report

The Contractor shall submit to the COR a monthly progress report (including photos of significant items), along with the monthly invoice, summing up observations resulting from the inspections, progress, difficulties or irregularities encountered, resolution of problems, measures taken to improve conditions, recommendations, and other matters related to this contract. When applicable, reports shall also include any pending questions that may require a response from the COR, any pending Government review comments regarding the Contractor's submittals, any proposed change orders that have not been executed, and any other pertinent information required to report the progress of performance under this contract. Monthly progress reports shall be submitted by the last calendar day of each month.

E.2.3 Inspection by Government

The COR, or his/her authorized representatives, will inspect from time to time the services being performed under this contract and the supplies furnished to determine whether work is being performed in a satisfactory manner, and that all supplies are of acceptable quality and standards.

The Contractor shall be responsible for any countermeasures or corrective action, within the scope of this contract, which may be required by the COR as a result of such inspection.

E.2.4 Weekly Progress Report

The contractor shall submit a weekly progress report with photos to the COR indicating whether or not the work is going according to the proposed schedule, the number of people that worked daily, the activities performed during each day, and any problems (if encountered).

E.3 SUBSTANTIAL COMPLETION

E.3.1 Definitions

- (a) "Substantial Completion" means the stage in the progress of the work as determined and certified by the Contracting Officer in writing to the Contractor, on which the work (or a portion designated by the Government) is sufficiently complete and satisfactory. Substantial completion means that the property may be occupied or used for the purpose for which it is intended, and only minor items such as touch-up, adjustments, and minor replacements or installations remain to be completed or corrected which:
 - (1) Do not interfere with the intended occupancy or utilization of the work, and
 - (2) Can be completed or corrected within the time period required for final completion.
- (b) The "date of substantial completion" means the date determined by the Contracting Officer or authorized Government representative as of which substantial completion of the work has been achieved.
- (c) The Contractor shall provide to the COR at least fifteen (15) workdays of advance written notice of the date the work will be substantially complete and ready for a Substantial Completion Inspection.

E.3.2 Use and Possession upon Substantial Completion

The Government shall have the right to take possession of and use the work upon substantial completion. Upon notice by the Contractor that the work is substantially complete (a Request for Substantial Completion) and an inspection by the Contracting Officer or an authorized Government representative (including any required tests) the Contracting Officer shall furnish the Contractor a Certificate of Substantial Completion, accompanied by the Schedule of Defects listing items of work remaining to be performed, completed or corrected before final completion and acceptance. Failure of the Contracting Officer to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The Government's possession or use upon substantial completion shall not be deemed an acceptance of any work under the contract.

E.3.3 Use of Equipment by the Government Upon Substantial Completion

- E.3.3.1 Right to Use. The Government may take over and operate, with Government and/or tenant personnel, any equipment which may be necessary for the operation of building systems, including heating/cooling, security, elevators, electrical, plumbing and mechanical systems, as soon as the installation of any such equipment is sufficiently complete to permit operation.
- E.3.3.2 Notice. For any equipment that may be operated by Government and/or tenant personnel (upon reaching substantial completion), the COR will advise the Contractor in writing, prior to the use of the equipment, which items of equipment will be operated, what individual (or individuals) will be authorized to operate the equipment, and the date and time such operation will begin. Only those individuals with the appropriate training will be authorized to operate equipment.
- E.3.3.3 Effect on Warranties. Government operation of equipment will not relieve the Contractor of any warranty or correction obligations provided for elsewhere in this contract. The applicable correction period for each piece of equipment shall be in accordance with the applicable provisions of this contract.

E.4 FINAL COMPLETION AND ACCEPTANCE

E.4.1 Definitions

- (a) "Final completion and acceptance" means the stage in the progress of the work as determined by the Contracting Officer and confirmed in writing to the Contractor, on which all work required under the contract has been completed in a satisfactory manner, subject to the discovery of defects after final completion, and except for items specifically excluded in the notice of final acceptance.

(b) The "date of final completion and acceptance" means the date determined by the Contracting Officer when final completion of the work has been achieved, as indicated by written notice to the Contractor.

E.4.2 Final Inspection and Tests

The Contractor shall provide to the COR at least fifteen (15) workdays of advance written notice of the date the work will be fully completed and ready for final inspection and tests. Final inspection and tests will be started not later than the date specified in the notice unless the COR determines that the work is not ready for final inspection and so informs the Contractor.

E.4.3 Final Acceptance

If the Contracting Officer is satisfied that the work under the contract is complete (with the exception of continuing obligations), the Contracting Officer shall issue to the Contractor a notice of final acceptance and make final payment upon:

- Satisfactory completion of all required tests,
- A final inspection that all items by the Contracting Officer listed in the Schedule of Defects have been completed or corrected and that the work is finally complete (subject to the discovery of defects after final completion), and
- Submittal by the Contractor of all documents and other items required upon completion of the work, including a final request for payment (Request for Final Acceptance).

SECTION F – DELIVERIES OR PERFORMANCE

F.1 FAR 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at: <http://acquisition.gov/far/index.html> or, <http://farsite.hill.af.mil/search.htm>

You may also use an Internet “search engine” (such as, Yahoo, Excite, Alta Vista, etc.) to obtain the latest location of the most current FAR.

FEDERAL ACQUISITION REGULATION (48 CFR CH. 1)

52.242-14 Suspension of Work (APR 1984)

F.2 FAR 52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract immediately upon receiving the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than two hundred forty five (245) calendar days thereafter. The 245 day performance period includes final cleanup of the premises and completion of punch list items. The 245 day performance period does not include the time it will take for the Contractor to submit the required bonds and insurance documentation. A Notice to Proceed with construction will not be issued until such time as the Contracting Officer has received the required bonds and insurance documentation.

F.3 LIQUIDATED DAMAGES

F.3.1 FAR 52.211-12 Liquidated Damages – Construction (SEP 2000)

- (a) If the Contractor fails to complete the work within the time specified in the contract, or any extension, the Contractor shall pay liquidated damages to the Government in the amount of \$260.89 U.S. Dollars for each day of delay until the work is completed or accepted.
- (b) If the Government terminates the Contractor’s right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

F.3.2 Assessment and Apportionment of Liquidated Damages

Liquidated damages will be assessed from the completion date indicated in the contract or extensions thereof to the date of substantial completion as actually achieved by the Contractor, as determined by the Contracting Officer.

F.4 CONTRACTOR'S SUBMISSION OF CONSTRUCTION SCHEDULES

- (a) The time for submission of the schedules referenced in Section I, 52.236-15, "Schedules for Construction Contracts", paragraph (a), is hereby modified to reflect the due date for submission as "fifteen (15) calendar days after receipt of an executed contract."
- (b) These schedules shall include the time by which shop drawings; product data, samples and other submittals required by the contract will be submitted for approval.

- (c) The Contractor shall revise such schedules (1) to account for the actual progress of the work, (2) to reflect approved adjustments in the performance schedule, and (3) as required by the Contracting Officer to achieve coordination with work by the Government and any separate contractors employed by the Government. The Contractor shall submit a schedule, which sequences work so as to minimize disruption at the jobsite.
- (d) All schedules shall be in the English language and any system of dimensions (English or metric) shown shall be consistent with that used in the contract. No extension of time shall be allowed on account of a delay by the Government in approving such deliverables if the Contractor has failed to act promptly and responsively in submitting the deliverables. The Contractor shall identify each deliverable as required by the contract.

F.5 ACCEPTANCE OF SCHEDULE

When the Government has accepted any time schedule, it shall be binding upon the Contractor. The completion date is fixed and may be extended only by a written contract modification signed by the Contracting Officer. Acceptance or approval of any schedule or revision thereof by the Government shall not (1) extend the completion date or obligate the Government to do so, (2) constitute acceptance or approval of any delay, or (3) excuse the Contractor from or relieve the Contractor of its obligation to maintain the progress of the work and achieve final completion by the established completion date.

F.6 NOTICE OF DELAY

If the Contractor receives a notice of any change in the work, or if any other conditions arise which are likely to cause or are actually causing delays which the Contractor believes may result in completion of the project after the completion date, the Contractor shall notify the Contracting Officer of the effect, if any, of such change or other conditions upon the approved schedule, and shall state in what respects, if any, the relevant schedule or the completion date should be revised. The Contractor shall give this notice not more than ten (10) days following the first occurrence of the event giving rise to the delay or prospective delay. Revisions to the approved time schedule shall only be made with the approval of the Contracting Officer.

F.7 NOTICE TO PROCEED

F.7.1 Limited Notice to Proceed. At the time of award, the Contracting Officer will issue a Limited Notice to Proceed (LNTP) to the contractor. The LNTP will authorize the contractor to commence with planning, begin procuring equipment and materials, and to initiate site mobilization.

Once the LNTP is issued, the contractor will have up to thirty (30) calendar days to submit the required performance and payment securities and evidence of insurance, as well as any other initial deliverables identified in contract Sub-Section F.11.

F.7.2 Full Notice to Proceed. Following receipt and acceptance of the required performance and payment securities and evidence of insurance, as well as any other required initial deliverables, the Contracting Officer will issue to the Contractor a Full Notice to Proceed (FNTP). The FNTP will authorize the contractor to commence with construction. The construction performance period, as specified in Sub-Section F.2, will commence on the date the FNTP is issued.

However, should the contractor fail to provide the required performance and payment securities and evidence of insurance within the time permitted under the LNTP (30 calendar days), the construction performance period will be reduced by the number of additional days it takes for the contractor to provide the performance and payment securities and evidence of insurance.

For example, if the performance and payment securities and evidence of insurance are provided 35 days after the LNTP is issued, this would be considered five days late. As a result, the 245 day construction performance period would be reduced by five days (to 240 days). The contractor would then have only 240 calendar days to execute and complete construction, once the FNTP is issued.

The one exception is if there is a delay in the Government completing a security background check of the company's owners. Following contract award, the Government will conduct a routine security background check of the successful company's owners. Should the background check not be completed by the time the contractor has provided all required bonds and evidence of insurance, the contractor will not be authorized to proceed with construction. That is, the FNTP will not be issued until such time as the Government has completed the security background check. In such a case, where the delay is not attributed to the contractor, there will not be a reduction in the construction performance period. Once a successful background check has been completed, the FNTP will be issued and the contractor will then have the entire performance period (as specified in Sub-Section F.2) to execute and complete construction.

It is possible that the Contracting Officer may elect to issue the FNTP before receipt and acceptance of any bonds or evidence of insurance required. Issuance of a FNTP by the Government before receipt of the required bonds or insurance certificates or policies shall not be a waiver of the requirement to furnish these documents.

NOTE: After contract award, if for any reason the contractor is unable to provide the required performance and payment securities and/or evidence of insurance, and this leads to termination of the contract, the contractor will not be reimbursed for any equipment and/or materials it may have procured under the LNTP, nor will the Contractor be reimbursed for any mobilization costs or other start-up costs that may have been incurred.

F.8 WORKING HOURS

F.8.1 General.

All work shall be performed during Monday through Saturday, except for the applicable holidays identified below. Working hours for Monday through Saturday shall be eight (8) hours per day. The specific working hours (start and finish times) will be determined at the time of contract award. Once the work schedule has been approved by the COR, other hours, if requested by the Contractor, may be submitted to the COR for consideration. Any change in the agreed to/approved working days and/or hours must receive the approval of the COR. The Contractor shall submit any such requests 24 hours in advance to COR who will consider any deviation from the hours identified above. Changes in the work schedule, if approved by the COR, will not be a cause for a price increase or additional time.

F.8.2 Holidays.

The Department of State (U.S. Embassy, Colombia) observes the following days as holidays:

New Year's Day (U.S. & Colombia)
Epiphany (Colombia)
Martin Luther King Jr. Day (U.S.)
President's Day (U.S.)
Palm Sunday (Colombia)
St. Joseph's Day (Colombia)
Holy Thursday (Colombia)
Good Friday (Colombia)
Easter (Colombia)
Labor Day (U.S.)
Ascension Day (Colombia)
Memorial Day (U.S.)
Corpus Christi Day (Colombia)
Feast of the Sacred Heart (Colombia)
Feast of Saints Peter and Paul (Colombia)
Independence Day (U.S.)

Veteran's Day (U.S.)
Cartagena Independence Day (Colombia)
All Saint's Day (Colombia)
Thanksgiving (U.S. & Colombia)
Feast of the Immaculate Conception (Colombia)
Christmas (U.S. & Colombia)

Any other day designated by Federal law, Executive Order or Presidential Proclamation.

When any such holiday falls on a Sunday, it is observed on the following Monday. Observance of such days by Government personnel shall not be cause for additional period of performance or entitlement to compensation except as set forth in the contract. If the contractor's personnel work on a holiday, no form of holiday or other premium compensation will be reimbursed either as a direct or indirect cost, unless authorized pursuant to an overtime clause elsewhere in this contract. The Contractor may choose not to work on any of the holidays designated above. However, no additional time will be added to the contract period of performance for any holidays not worked, as the contract period of performance accounts for holidays.

As this contract is for construction taking place on a non-US Government property, the Contractor is not required by this contract to consider or observe U.S. holidays. However, the Contractor must act in compliance with local holidays and shall exercise due diligence to ensure local customs, appropriate compensation issues, and labor laws are addressed.

F.9 EXCUSABLE DELAYS

F.9.1 Examples of Excusable Delays

The Contractor will be allowed time, not money, for excusable delays as defined in FAR 52.249-10, Default. Examples of such cases include:

- (1) acts of God or of the public enemy,
- (2) acts of the United States Government in either its sovereign or contractual capacity,
- (3) acts of the government of the host country in its sovereign capacity,
- (4) acts of another contractor in the performance of a contract with the Government,
- (5) fires,
- (6) floods,
- (7) epidemics,
- (8) quarantine restrictions,
- (9) strikes,
- (10) freight embargoes,
- (11) delays in delivery of Government furnished equipment and
- (12) unusually severe weather.

In each instance, the failure to perform must be beyond the control and without the fault or negligence of the Contractor, and the failure to perform:

- (1) must be one that the Contractor could not have reasonably anticipated and taken adequate measures to protect against,
- (2) cannot be overcome by reasonable efforts to reschedule the work, and
- (3) directly and materially affects the date of final completion of the project.

F.9.2 Rain Delays

Rain Days: For each rain day on which the Contractor is unable to perform work, one additional calendar day may be added to the contract period of performance. The additional time added to the schedule is considered to be full compensation to the Contractor for any work time lost as the result of rain delays. The Contractor will not receive additional monetary compensation as the result of rain delays. The Contractor is required to mitigate the impact of rain delays by performing any other activities that can be performed during periods of rain.

A “rain day” is defined as a day on which it is apparent that the rain is of such a magnitude or duration that it would be unlikely that the Contractor would be able to complete sufficient work to justify requiring the Contractor and its labor force to remain on site during that day.

Each rain day will be decided on a case-by-case basis, and must be approved as a rain day by the COR. Any disputes shall be resolved by the Contracting Officer.

F.10 PRE-CONSTRUCTION CONFERENCE

A pre-construction conference will be held within 10 calendar days after contract award at the American Embassy Bogota (or at the project site) to discuss the schedule, submittals, notice to proceed, mobilization and other important issues that affect construction progress. See FAR 52.236-26, Pre-Construction Conference in Section I.

SECTION G – CONTRACT ADMINISTRATION DATA

G.1 AUTHORITY OF CONTRACTING OFFICER

All work shall be performed under the general direction of the Contracting Officer, who alone shall have the authority to bind the Government and to exercise the rights, responsibilities, authorities and functions vested by the contract. The Contracting Officer and the Procurement Executive shall have the right to designate authorized representatives to act for the Contracting Officer, such as the COR.

If, in the COR's opinion, the use of such substitute items is not in the best interests of the Government, the Contractor must obtain the items originally specified with no adjustment in the contract price or completion date.
- (b) Approval through shop drawings. The Contractor may propose substitutions of materials in the submittal of shop drawings, provided such substitution is specifically requested in writing in the transmittal of the shop drawings to the COR. Such substitution requests must be made in a timely manner and supported by the required information.
- (c) Final approval on delivery. Acceptance or approval of proposed substitutions under the contract are conditioned upon approval of items delivered at the site or approval by sample. Approval by sample shall not limit the Government's right to reject material after delivery to the site if the material does not conform to the approved sample in all material respects.

H.15.5 "Or-Equal Clause"

References in the Specifications/Statement of Work to materials, products or equipment by trade name, make, or catalog number, or to specific processes, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition. The Contractor may propose for approval or rejection by the COR the substitution of any material, product, equipment or process that the Contractor believes to be equal to or better than that named in the Specifications/Statement of Work, unless otherwise specifically provided in this contract.

H.15.6 Use and Testing of Samples

("Samples" include materials and equipment.)

- (a) Use. The Contractor shall send approved samples not destroyed in testing to a certified laboratory designated by the COR. Those which are in good condition will be marked for identification and may be used in the work. Materials and equipment incorporated in the work shall match the approved samples within any specified tolerances. Other samples not destroyed in testing or not approved will be returned to the Contractor at its expense if so requested.
- (b) Failure of Samples. If a sample fails to pass the specified tests described in this contract any further samples of the same brand or make of that material or equipment may not be considered for use in performance under this contract.
- (c) Taking and testing of samples. Samples delivered on the site or in place may be taken by the COR for additional testing by the Government outside of those required by the Contract documents. Samples failing to meet contract requirements will automatically void previous approvals of the items tested. The Contractor shall replace such materials or equipment found not to have met contract requirements, unless the COR determines it to be in the Government's interest to accept the non-conforming materials or equipment with an appropriate adjustment of the Contract price as determined by the Contracting Officer.
- (d) Cost of additional testing by the Government. When additional tests of samples are performed, only one test of each sample proposed for use will be made at the expense of the Government. Samples which do not meet contract requirements will be rejected. Further testing of additional samples, if required, will be made at the expense of the Contractor.

H.15.7 Prohibition on Use of Asbestos-Containing Materials

Asbestos-free materials shall be used for this project. The Government reserves the right, at no additional cost to the Government, to disapprove and to disallow the installation of any item containing asbestos.

H.16 IMPORTED MATERIALS, EQUIPMENT, AND PERSONNEL

H.16.1 Shipment and Customs Clearance

- (a) Costs to be borne by Contractor. The Contractor is responsible for paying all charges incurred in obtaining materials that must be imported for the project and in transporting the materials from their place of origin to the construction site. Moving costs shall include, but not necessarily be limited to, packing, handling, cartage, overland freight, ocean freight, transshipment, port, unloading, customs clearance and duties (other than customs duties specified below), unpacking, storage, and all other charges including administrative costs in connection with obtaining and transporting the materials from their source to the project site.

The Contractor shall be responsible for paying the cost, insurance, and freight (CIF) for shipping the materials from the place of purchase to Colombia Customs. The Contractor shall also be responsible for the cost of inland transportation from Colombia Customs to the construction site. It is the responsibility of the Contractor to determine what materials, if any, the Contractor will be importing into Colombia for the project, as well as the cost and appropriate means of shipping the materials to the appropriate Customs facility in Colombia and transporting the materials onward from Customs to the construction site.

- (b) Duty-free clearance. The Contractor shall not be responsible for customs duties for which the Government has been able to obtain a customs waiver. The Contractor shall follow the instructions of the COR as to the manner of labeling the shipping containers or otherwise processing shipments of imported materials in order to obtain, or continue to receive, duty free clearance through customs. The Contractor shall be responsible for the payment of customs duties, if any, which

- (1) are imposed on items which are not labeled and processed in accordance with the COR's instructions,
- (2) are imposed on the Contractor's tools, construction equipment and machinery imported for use on the project, or
- (3) are otherwise ineligible for duty-free entry. The Contractor is responsible for customs duties where the Contractor has failed to give adequate and timely notice to the COR of importation on containers or materials which may be eligible for a customs waiver. The COR will provide instructions concerning time periods for notification of importation by the Contractor.

(c) Customs Clearance. The Contractor shall be responsible for obtaining customs clearances, and for obtaining exemption certificates or paying customs duties not waived, for imported products, materials and equipment which are labeled and processed in accordance with the COR's instructions. The Government shall not be responsible for obtaining customs clearance for the Contractor's tools, construction equipment or machinery, nor for obtaining visas, entry or work permits for the Contractor's personnel.

H.16.2 Surplus Materials.

Unless otherwise specified, any surplus materials, fixtures, articles or equipment remaining at the completion of the project shall become the property of the Contractor, except those items furnished by the Government, whose cost is not included in the contract price.

H.17 SPECIAL WARRANTIES

H.17.1 Special Warranty Obligations.

Any special warranties that may be required under the contract shall be subject to the stipulations set forth in FAR 52.246-21, "Warranty of Construction," as long as they do not conflict with the provisions of such special warranties.

H.17.2 Warranty Information

The Contractor shall obtain and furnish to the Government all information required in order to make any subcontractor's, manufacturer's, or supplier's guarantee or warranty legally binding and effective. The Contractor shall submit both the information and the guarantee or warranty to the Government in sufficient time to permit the Government to meet any time limit requirements specified in the guarantee or warranty, but not later than completion and acceptance of all work under this contract.

H.18 EQUITABLE ADJUSTMENTS

H.18.1 Basis for Equitable Adjustments.

Any circumstance for which the contract provides for an equitable adjustment that causes a change within the meaning of paragraph (a) of the "Changes" clause shall be treated as a change under that clause. The Contractor shall give the Contracting Officer written notice within twenty (20) days after the event stating (a) the date, circumstances, and applicable contract clause authorizing an equitable adjustment and (b) that the Contractor regards the event as a changed condition for which an equitable adjustment is allowed under the contract.

H.18.2 Differing Site Condition Notice.

The Contractor shall provide written notice of a differing site condition within ten (10) days of occurrence following FAR 52.236-2, "Differing Site Conditions."

H.18.3 Documentation of Proposals for Equitable Adjustments.

(a) Itemization of proposals and requests. The Contractor shall submit any request for equitable adjustment in the contract price, including any change proposal submitted in accordance with the "Changes" clause, in the form of a lump sum proposal supported with an itemized breakdown of all increases and decreases in the contract price in the detail required by the Contracting Officer. The request shall include all costs and delays related to or arising out of the change or event giving rise to the proposed adjustment, including any delay damages and additional overhead costs.

- (b) Proposed time adjustments. The Contractor shall submit a proposed time extension (if applicable) with any request for an equitable adjustment or change proposal. The request shall include sufficient information to demonstrate whether and to what extent the change will delay the completion of the contract.
- (c) Release by Contractor. The price and time adjustment made in any contract modification issued as a result of a change proposal or request for an equitable adjustment shall be considered to account for all items affected by the change or other circumstances giving rise to an equitable adjustment. Upon issuance of such contract modification, the Government shall be released from any and all liability under this contract for further equitable adjustments attributable to the facts and circumstances giving rise to the change proposal or request for equitable adjustment.

H.19 NONCOMPLIANCE WITH CONTRACT REQUIREMENTS

If the Contractor, after receiving written notice from the Contracting Officer of noncompliance with any requirement of this contract, fails to initiate promptly appropriate action(s) to bring performance/work into compliance with a contract requirement within a reasonable period of time, the Contracting Officer shall have the right to order the Contractor to suspend any or all work under the contract. This order shall be in force until the Contractor has complied or has initiated such action as may be appropriate to comply within a reasonable period of time. The Contractor will not be entitled to any extension of contract time or payment for any costs incurred as a result of being ordered to suspend work for such a cause.

H.20 ZONING APPROVALS AND BUILDING PERMITS

The Colombian government is responsible for obtaining proper zoning or other land use control approval for the project, obtaining the approval of the Contract Drawings and Specifications, paying fees due, and obtaining and paying for the initial building permits.

H.21 SITE SUPERINTENDENT

The Contractor shall assign a full-time site superintendent to the project who is a registered Architect or Registered Engineer and a graduate from a local institution or other accredited institution; this person must have at least two years of experience in a similar position. The COR will determine if the person proposed by the Contractor to be the site superintendent meets this requirement.

H.22 SECURITY OF MATERIALS

The Contractor shall be fully responsible for the security of materials stored at the construction site and shall take appropriate measures to protect the materials.

H.23 ASSIGNMENT

The Contractor shall not assign the contract or any part thereof without the written consent of the Contracting Officer, nor shall the Contractor assign any moneys or other benefits due or to become due to it hereunder, without the previous written consent of the Contracting Officer.

H.24 TESTING LABORATORY

The Contractor is responsible for the costs of all required tests, including tests performed by a laboratory. The laboratory to be used by the Contractor for any tests shall be either certified, or well known in Colombia as a qualified and reputable laboratory. The COR will determine if the laboratory or laboratories proposed by the Contractor are acceptable. In any case, the certification of calibration for all equipment and a CV of the person in charge to perform the tests will be required.

"Central Contractor Registration (CCR) database" means the retired primary Government repository for Contractor information required for the conduct of business with the Government.

"Commercial and Government Entity (CAGE) code" means-

- (1) **A code assigned by the Defense Logistics Agency (DLA) Logistics Information Service to identify a commercial or Government entity; or**

"Data Universal Numbering System+4 (DUNS+4) number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional **SAM** records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same concern.

"Registered in the **SAM** database" means that-

- (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the **SAM** database;
- (2) The Contractor's CAGE code is in the **SAM** database; and
- (3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record "Active". The Contractor will be required to provide consent for TIN Attachment, Page 1 of 4 validation to the Government as a part of the **SAM** registration process.

"System for Award Management (SAM)" means the primary Government repository for prospective federal awardee information and the centralized Government system for certain contracting, grants, and other assistance related processes. It includes-

- (1) Data collected from prospective federal awardees required for the conduct of business with the Government;
 - (2) Prospective contractor submitted annual representations and certifications in accordance with FAR Subpart 4.12; and

- (b) (1) The Contractor shall be registered in the **SAM** database prior to submitting an invoice and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

- (2) The **SAM** registration shall be for the same name and address identified on the contract, with its associated CAGE code and DUNS or DUNS+4.
 - (3) If indicated by the Government during performance, registration in an alternate system may be required in lieu of SAM.
- (c) If the Contractor does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.
- (1) A contractor may obtain a DUNS number-
 - (i) Via the internet at <http://fedgov.dnb.com/webform> or if the contractor does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or
 - (ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The contractor should indicate that it is a contractor for a U.S. Government contract when contacting the local Dun and Bradstreet office.
 - (2) The Contractor should be prepared to provide the following information:
 - (i) Company legal business name.
 - (ii) Trade style, doing business, or other name by which your entity is commonly recognized.

- (f) The Contractor is responsible for the accuracy and completeness of the data within the **SAM** database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the **SAM** database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the **SAM** database to ensure it is current, accurate and complete. Updating information in the **SAM** does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

- (g) (1) (i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer sufficient documentation to support the legally changed name with a minimum of one business day's written notification of its intention to-

K.5. FAR 52.209-5 Certification Regarding Responsibility Matters (APR 2010).

- (a) (1) The Offeror certifies, to the best of its knowledge and belief, that—
- (i) The Offeror and/or any of its Principals—
 - (A) Are ___ are not ___ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
 - (B) Have ___ have not ___, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks “have”, the offeror shall also see [52.209-7](#), if included in this solicitation);
 - (C) Are ___ are not ___ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;
 - (D) Have ___, have not ___, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.
 - (1) Federal taxes are considered delinquent if both of the following criteria apply:
 - (i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
 - (ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
 - (2) *Examples.*
 - (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
 - (ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

- (iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
- (iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
- (v) The Offeror has ___ has not ___, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.
- (ii) The Offeror has ___ has not ___, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.
- (2) “Principal,” for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

- (b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror’s responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
- (d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

- (i) In a criminal proceeding, a conviction.
 - (ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.
 - (iii) In an administrative proceeding, a finding of fault and liability that results in—
 - (A) The payment of a monetary fine or penalty of \$5,000 or more; or
 - (B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.
 - (iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.
- (2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.
- (d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the Central Contractor Registration database via <https://www.acquisition.gov> (see 52.204-7).
